

Final Assessment - Practical – Development/Programming Assessment

Marks Break Down:

Section A: Question 1: 15 Marks

Section A: Question 2: 15 Marks

Section B: Question 1: 15 Marks

Section B: Question 2: 15 Marks

GitHub Profile – End to End - Assignments : 40 Marks

Course: Fullstack AI – Batch – 7 / 8

You have to program/Develop : 2 question dataset from Section A and
2 question from section B

Theme of Paper:

<https://www.spacex.com>

<https://en.wikipedia.org/wiki/SpaceX>

https://en.wikipedia.org/wiki/Elon_Musk

<https://en.wikipedia.org/wiki/Starlink>

<https://en.wikipedia.org/wiki/Neuralink>

- ✓ **Elon Musk** is building an integrated AI–space–neuro ecosystem, linking X (Twitter), xAI, Tesla, Neuralink, and SpaceX into a vertically integrated data + compute platform.
- ✓ **SpaceX** has executed a historic June 2026 IPO (~\$75B raise; ~\$1.7T+ valuation), transforming from private disruptor to public infrastructure giant in space and AI.
- ✓ **Starlink** is the core value driver (>\$11B revenue, majority share of total), positioning SpaceX as a global telecom backbone rather than a pure launch company.
- ✓ **Neuralink** advances brain–computer interfaces with human trials and planned high-volume production in 2026, targeting healthcare and human-AI integration.
- ✓ **Twitter (X)** acts as the data/distribution layer for Musk’s AI (Grok), creating a feedback loop across platforms and strengthening ecosystem lock-in.
- ✓ **Upcoming Space IPO Landscape:** beyond SpaceX, next wave includes Starlink spin-off potential plus firms like Axiom Space, Relativity Space, and AI giants (OpenAI, Anthropic) shaping capital markets.

=====Dataset:

Dataset 1. [Space Industry Analytics]

<https://github.com/ShahzadSarwar10/FULL-STACK-B-8-Wed-Thru-Fri/tree/main/FinalAssessment/Space%20Industry%20Analytics>

Dataset 2.[SpaceX Missions, 2006-Present]

<https://github.com/ShahzadSarwar10/FULL-STACK-B-8-Wed-Thru-Fri/tree/main/FinalAssessment/SpaceX%20Missions%2C%202006-Present>

Dataset 3:[SpaceX SPCX Stock Price 30m Interval]

<https://github.com/ShahzadSarwar10/FULL-STACK-B-8-Wed-Thru-Fri/tree/main/FinalAssessment/SpaceX%20SPCX%20Stock%20Price%2030m%20Interval>

Dataset 4:[Starlink & SpaceX Data Dataset]

<https://github.com/ShahzadSarwar10/FULL-STACK-B-8-Wed-Thru-Fri/tree/main/FinalAssessment/Starlink%20%26%20SpaceX%20Data%20Dataset>

Dataset 5:[The 2026 Tech Mega-IPO Wave SpaceX, OpenAI & More]

<https://github.com/ShahzadSarwar10/FULL-STACK-B-8-Wed-Thru-Fri/tree/main/FinalAssessment/The%202026%20Tech%20Mega-IPO%20Wave%20SpaceX%2C%20OpenAI%20%26%20More>

=====

Section A: Machine Learning - SK LEARN [Marks 15+15]

Need to apply – Numpy, Pandas, Seaborn

Apply: Classification, Regression, Clustering, Ensemble Learning

Question/Task - 1:

Select one of the above dataset and apply.

Question/Task 2:

Next, Select one of the above different dataset and apply.

Steps - TO Do: [Neat, Clean, well-documented code]

Loading in DataFrame, Perform “Descriptive Statistics” Max- Operations, Input data analysis based on seaborn, Performing core operation of SK Learn, Perform metric analysis

[10 Marks for exceptional creative deep data analytical skills demonstration. For standard implementation – these marks will NOT be given.]

Need demonstration of all skills, learn in this course. End to end. For standard implementation, no marks , will be given. AI generated code or copy pasted code, will get only zero marks.

Section B: Deep Learning [Marks 15 + 15]

Process, All 2 dataset

Apply end to end, Apply – Numpy, Pandas, SeaBorn

Apply Time SERIES – RNN , LSTM and GRU

Steps - TO Do:[Neat, Clean, well-documented code]

=====

Design Model with related layers, Performing core operation of Tensflow-Keras based deep learning, Perform Model metric analysis

[10 Marks for exceptional creative deep data analytical skills demonstration. For standard implementation – these marks will NOT be given.]

Question/Task - 3:

Select one of the above dataset and apply.

Question/Task 4:

Next, Select one of the above different dataset and apply.

Need demonstration of all skills, learn in this course. End to end. For standard implementation, no marks , will be given. AI generated code or copy pasted code, will get only zero marks.
